OFFICIALS NOTIFIED TO OMIT MAYFIELD'S NAME FROM BALLOT

MAY BE DESTROYED.

Judge Jones Sheriff Smith and County Clerk Harris received telegrams at noon Friday from Luther Nickels attorney for the plaintiffs in the injunction suit at Groesbeck which reads "You are notified that on November 4 application will be presented to district court at Groesbeck for order requiring you to take up and destroy any ballots distributed with Mayfield's name on them."

Notices of the new injunction granted Thursday afternoon in Limestone county, seeking to enjoin the printing of Earle B Mayfield's name on the official ballot for next Tuesday were received Friday morning by County Clerk W T Harris County Judge J P Jones all four county commissioners County Auditor W W Murphy and Sheriff Fred K. Smith.

County Judge J P. Jones and Sheriff Smith each received a telegram from the district clerk of Limestone county, sent as a night letter which read

"This notice is to you that on November 2, in cause 5227 to which you are a party in district court, Limestone county an order was entered restraining you and your agents from printing or permitting to be printed the name of Earle B Mayfield upon any official ballot to be used in ensuing general election and from distributing or permitting to be distributed any such ballots which said name placed thereon et cetera pending further orders or which orders you will take notice Hearing set for November 4 10 00 o'clock

(Signed) "Johnson Wakefield, district clerk"

The notice received by the other parties was sent out from the local Paddy campaign headquarters and bore the signature of Henry B Lindsley for Paddy campaign committee of Texas.

The notice refers to the fact that the court of civil appeals at Dallas Thursday dissolved the temporary injunction, theretofore granted by Judge Hawkins Scarbrough, of the district court of Navarro county and that by such judgment of the court the injunction ceases to be in force and effect

It further recites however that immediately after said action of the higher court the Hon A M Blackman judge of the district court at Limestone county granted a temporary injunction restraining S L Staples secretary of state from certifying the name of Earle B Mayfield as a candidate for United States senator, to be printed on the official ballot and that it further restrained each and every person from placing or causing to be placed the name of Earle B. Mayfield upon said ballot before the ballot is handed to the voter on election day that it further restrains each and every election officer in Texas from using or permitting to be used as the official ballot of said election any ballot upon which is placed or printed the name of Earle B Mayfield before such ballot is furnished to a voter at the polls on election day.

"The notice as received by the various officials also cites cases pertinent to the issue at stake They follow

"Where a court has authority to enjoin its writ must be obeyed until dissolved though irregular and erroneously granted" Exparte Warfield 40 Criminal Rep. 432

"In order to render one guilty of contempt, consisting of the violation of an injunction it is not necessary that the writ should have been served on him if he had actual knowledge of its issuance" Exparte Stone, 72 S W 1089, Criminal Appeal

FACES FURTHER CROSS EXAMINATION IN CASE

Testifies to Conversation and Incidents in Connection With Killing.

LOS ANGELES Nov 3 Mrs Clara Phillips charged with the so called hammer murder faced further cross examination today She took the stand in her defense yesterday and charged her sister Mrs Peggy Caffee with having wielded the hammer with which Mrs. Alberta Tremaine Meadows a young widow was killed to death

Then I told Peggy she was the dirtiest woman on earth dirty as a dog and then she struck me Then we fought and fought and fought I had no strength It made me sick I screamed for Peggy She got Alberta off of me and struck her with the hammer I was trembling and everything seemed to go black before my eyes"

The defendant previously had declared also that it was Mrs Caffee her former chum in the burlesque a musical comedy who fought the hammer with which the [illegible] widow was killed and not the defendant as Mrs Caffee had testified

LLOYD GEORGE AND LABOR FEATURE IN BRITISH ELECTION

HEALTH OF FORMER AND ACTIVITY OF WORKERS HOLD INTEREST

BOTH SIDES WORRIED OVER THE SITUATION

Warnings Urge Party Workers Not to Abate Energy to Prevent Labor Victory

By Associated Press

LONDON Nov 3 The report that Lloyd George is recovering so well from his recent illness and throat trouble that he will be able to fill an engagement to address a meeting in Glasgow tomorrow morning shapes the chief interest of the voters of Great Britain today with the prospect of his coming electioneering

The time limit for making nominations for parliament expires today so it is there is a keen curiosity over what Lloyd George is going to do about his threat to spread the war against the conservatives Up to now he has not said anything definite as to his intentions in this matter and his silence has spawned a mess of rumors There is even a hint that he might be willing to weld the national liberals to the free liberals headed by former Premier Asquith but the proportion of the electorate which takes this report seriously is not large

The stand thrashing labor received in the municipal elections throughout the country Wednesday has caused the opponents of labor about as much worry as the laborites themselves The leaders are not without fear that the party workers may too readily take the local results as prophetic of what will happen in the parliamentary elections Warnings have been sent forth from both the liberal and conservative camps urging the workers not to abate their energies to prevent a labor victory on November 15

In order to patch up some of its broken down fences labor seems to be hedging a bit from its first promising cry for a heavy levy on capital The Times says that the plan in the platform is not raising satisfactory supports in the constituencies and that even in Glasgow a stronghold of extremists the labor speakers have been instructed to make it clear that the levy is only a suggestion, not a definite proposal

WILL URGE LOCAL SUPPORT IN BOND ISSUE NOVEMBER 17

LOCAL CITIZENS PROMISE TO WORK FOR HOSPITAL MOVE.

LEGAL ASPECTS OF ELECTION DISCUSSED

Visiting Members of Conference Ask Support in Spite of Technicalities.

The representatives of Electra, Iowa Park and Burkburnett carried their point Thursday afternoon, at the conference on the hospital bond issue, when they secured promises of support from the Wichita Falls business men present.

These Wichitans promised to try to enlist the active support of the chamber of commerce for the bonds and agreed to individually work for the issue. Their spokesman, Frank Kell made it plain, however, that the promise of such support did not mean that Wichita Falls would necessarily vote for the bonds, owing to the sentiment against further increase in taxes.

Mr. Kell told that not long ago the need of a paved road toward the irrigation damsite was considered so urgent that a quiet movement for a precinct bond issue was started. It was soon ascertained, Mr. Kell said that sentiment was against voting bonds even for that purpose, and he did not know whether Wichita Falls voters would get behind the hospital bonds on November 17.

Representatives of the other towns, after hearing the discussion of the legal aspects of the election, made a plea for support for the bonds, regardless of the technicalities involved. It was brought out in the discussion that there is some question as to the ability to get the bonds approved, owing to the obscure wording of the law on hospital bonds.

"Help us vote the bonds," said the other towns' representatives. "Then if it's knocked out, it won't be Wichita county's fault."

The promise of individual support was given after the Wichita Falls men present had retired to discuss the matter among themselves. It was learned that they were not unanimous on the matter. Frank Kell, J. A. Kemp, C. H. Clark, G. C. Wood, George Keith and J. C. Mytinger were among those agreeing to lend their support.

John Jacob Astor Plans to Transfer Wealth to England

LONDON, Nov. 3.—The remark made by Major John Jacob Astor, who said, "I am transferring my wealth from America to this country," was treated as a big item of news in this morning's papers. One headline read:

"Astor millions coming here." By some it was assumed that the major, who is a brother of the Viscount Astor, merely referred to his recent investment in Lord Northcliffe's share of the London Times stock, which he and J. A. Walter purchased for more than $6,000,000, but others gave the remark a more sensational turn.

Major Astor, who is contesting for a seat from Dover in the coming elections, made the statement in replying to a heckler who inquired whether he was going to expose his own wealth to British taxation.

ASTOR ESTATE VALUED AT EIGHTY MILLION DOLLARS

NEW YORK, Nov. 3.—There was much speculation in New York today over the reported announcement in London yesterday by Major The Honorable John Jacob Astor that he was transferring his wealth from America to England. The realty and personal holdings of the late Baron (William Waldorf) Astor in the United States totaled more than $80,000,000, according to a referee's report filed last March in supreme court.

Of this vast fortune, in which Major Astor participated with Viscount Astor, his elder brother, $50,000,000 is represented in realty. The property was conveyed to the two sons in 1919 and the income from that source is placed at $5,291,210. In addition, Major Aster was given outright by his father Manhattan realty valued at more than $7,000,000.

Several pieces of New York property have been sold by Major Astor in the past few years, but it is considered unlikely he will dispose of all real estate in this country, but rather will transfer his income or personal property to England.

ROOSEVELT TREE IS REMOVED FROM ALABAMA CAPITOL

MEMORIAL MYSTERIOUSLY DISAPPEARS THURSDAY NIGHT.

NOTE IS DISCOVERED WHERE THE TREE STOOD

Declares There Are No Trees in Honor of Southerner at Washington.

MONTGOMERY, ALA., Nov. 3.—The Roosevelt memorial tree, which has been the subject of a controversy since planted on the Alabama capital lawn by Montgomery boy scouts last Friday, mysteriously disappeared last night and today officials still were without the identity of the miscreants.

A note discovered where the tree had stood read.

"Montgomery, Ala.—Get this Alabama.

"To all concerned:

"The Daughters of the Confederacy are our mothers (war mothers) and this is the south. There are no trees in honor of southern gentlemen in the capitol yard at Washington and our war mothers do not want this one here."

Only yesterday the controversy resulting from the Daughters of the Confederacy objecting to the trees remaining on the capitol lawn was brought to a climax by the white house association president naming a committee to cooperate with other Confederate organizations' committees in their efforts to have the memorial removed.

The association is a band of women organized for the purpose of preserving the original white house of the Confederacy where Jefferson Davis resided when the capital was located in Montgomery. The organization contended it was improper for the memorial to Roosevelt to stand on the capitol grounds within earshot of the place where Davis became president of the Confederacy.

MRS. MABEL CHAMPION MUST SERVE 20 YEARS IS VERDICT OF JUDGE

CLEVELAND, Nov. 3.—Mrs. Mabel Champion will serve 20 years in the Marysville reformatory for the murder of Thomas A. O'Connell, New Haven, Conn., carnival promoter, unless the court of appeals or a higher court grants her a new trial and she is then acquitted or unless she is pardoned by the governor. She has no hope of parole.

The sentence was imposed last night by Judge Maurice Bernon, after a jury convicted her of manslaughter, exactly 22 hours after it had commenced deliberating. Court attaches say Mrs. Champion—she is only 22—is one of the youngest women ever convicted of a crime that involved killing.

Attorneys for Mrs. Champion announced their intention of appealing the case on error. When the verdict was read they entered a motion for a new trial and asked that it be deferred until the motion was heard.

"The jury has been very kind and merciful in my opinion," said Judge Bernon. "I see no reason for further leniency on the part of the court."

Mrs. Champion was charged with second degree murder for the killing of O'Connell in a restaurant last July.

2 BIG CONVENTIONS IN 1923 ASKED BY BUSINESS COUNCIL

WANT BAPTIST AND FEDERATED CLUB MEETINGS HELD HERE.

PYRON TELLS REASONS FOR GULF CO.'S MOVE

Produce Meeting to Be Entertained With Visit to Site of Storage Dam.

A decision to go after the 1923 State Baptist convention and the State Federation of Women's clubs was reached at the weekly session of the business council at the Kemp Friday, and efforts for later conventions such as the American Legion and Rotary meetings for 1924, were also discussed.

Plans for entertaining the state convention of wholesale produce men, which will be held here late in November, were taken up, and it was agreed that members of the council, most of whom have not visited the storage dam site, will take the produce men to the scene of operations as a feature of the entertainment.

A talk by Walter B. Pyron, third vice-president of the Gulf company, was an interesting feature of the meeting. Mr. Pyron said that his company was moving its north Texas offices solely for operating reasons, denying that the housing situation was a factor in the move.

The decision to invite the Baptist convention followed a recommendation to that effect by Horace Robbins, chairman of the convention committee. Mr. Robbins said that the hotel accommodations here were not sufficient for a gathering like the Baptist convention, the plan of providing rooms for delegates in private homes could be successfully followed. Mr. Robbins pointed out that Waco had several times entertained the convention.

"I'd hate to admit that Wichita Falls couldn't tackle anything that Waco could put over," Mr. Robbins said.

A motion to get behind the movement prevailed. Mr. Harris reported that local club women were planning to go to Houston next week to invite the 1923 meeting of the Texas Federation of Women's clubs here, and the local committees wanted to know if the chamber of commerce would back their plans. A motion to pledge such backing prevailed.

George Keith, chairman, announced that the meeting of the state produce men here late this month would afford an opportunity for Wichitans to combine hospitality with a visit to the damsite. A motion prevailed that the council undertake to see that the visitors are taken to the site, and B. J. Bean was appointed chairman of the arrangements committee. Mr. Keith said that the produce men were much interested in the irrigation project.

During the discussion of the Baptist convention, J. C. Hunt provoked laughter by commenting that since it has rained, and the waterworks convention is to be held here, there could be no objection on the Baptists' part to coming here.

While the convention matters were being considered, D. J. Carrithers brought up the question of providing a permanent convention hall. Hubert Harrison replied that the building of an auditorium here was a matter set for future attention, but upon which nothing could be done at present.

Joseph Huckins Jr., of Oklahoma City, who was a guest at the luncheon, warned the members against extravagant plans or promises of entertainment. Hospitality in such matters could be overdone and needless expense incurred, Mr. Huckins pointed out.

Walter Pyron of the Gulf company, was invited to address the meeting. Mr. Pyron said he wanted to correct an impression that the company's move was due to difficulty in obtaining houses here. Operating reasons were solely responsible, Mr. Pyron said, it having been found not feasible to reach the North Texas district as a whole from Wichita Falls.

Mr. Pyron had much to say in praise of Wichita Falls and the spirit of the citizenship. He predicted that the irrigation project would bring prosperity far in excess of even the most sanguine hopes. He urged that more attention be given the subject of amusements for those who can't afford to own cars or belong to country clubs, saying that the need for such things seemed very present.

Major W. L. Culbertson announced the plans for the Armistice Day ceremony, and invited members of the council to attend the program at the court house. Those who cannot, he said, should at least participate in the one moment of silent tribute at 11 o'clock. Joe Huckins Jr. in a brief talk also urged participation in this ceremony.

LEE SPRINKLE IS ARRESTED AFTER DOSSETT'S DEATH

Lee Sprinkle, who was the driver of the car which collided with the automobile in which J. W. Dossett was a passenger last Saturday night, was placed under arrest Thursday night on charges of negligent homicide. He posted a $500 bond and was released.

Mr. Dossett died Sunday afternoon following the accident on Saturday night. The smashup occurred on Grant street near Avenue E, and Mr. Dossett, who was riding in the rear of the Ford truck was seriously injured at that time.

It is charged in the complaint filed in the county court at law that Sprinkle was driving his automobile at a speed greater than that permitted under the state law.

Mrs. Marx Says It Proved A Blessing

"Tanlac helped me out of a sick bed and built me up to better health than I have enjoyed in years," declared Mrs. M. Marx, 2712 Benton st., St. Louis, Mo.

"My stomach troubled me so much for two or three years I finally collapsed in a nervous breakdown. Gas would form in my stomach and bring on awful spells of heart palpitation, shortness of breath, headaches and dizzy spells. My back pained me, too, and I was so nervous and miserable I could not sleep.

"What four bottles of Tanlac did for me was a most pleasant surprise, for today I haven't a single trace of my old troubles. I will always bless the day I got this wonderful medicine."

OUT FOR STAGE RECORD

PEGGY LYTTON

Peggy Lytton is out to make a stage record to match her war record.

She'll have to hustle, too, for she has been decorated by a number of countries.

Belgium gave her a war medal made her a member of the Royal Order of Queen Elizabeth and a Chevalier of Leopold II.

France gave her a Red Cross "memory medal" and the Croix de Guerre.

The Albanian government created a title for her and in that country she is a duchess.

And she is starting her new career from a humble maid in a new show on Broadway.

Her real name is Marguerite Mosely Williams. She is just 23.

BUSINESS WOMEN GIVE OPEN HOUSE THURSDAY EVENING AT THE CLUB

The Business Women's club entertained Thursday evening with the first open house for the year at the Y. W. C. A. club rooms when a number of their young men friends were guests at a Halloween party for fun and dance.

The Y. W. was attractively decorated for the occasion with the usual Halloween jack-o-lanterns on the walls of the living room, club room and dining room, where the dance was held lavishly hung with black and gold crepe streamers and the frog footed in the Halloween colors. With her black cat and thin little witch spoons were in conspicuous places and the living room table with a tall, black witch stirring in this gastly delicious fruit punch. Witch dumpling dishes. In the club room fortunes were taken out of a mysterious pond by means of long threads to the end of which were attached articles containing the fortunes prophesied. Miss Gladys Steele in a very effective witch's garb served and directed the crew and Miss Ethel M. Dowell presided at the fortune telling booth. Tables were arranged for the game of Halloween Moon and sixteen to twenty players kept the moon busy traveling. In the living room also Miss Josephine Fisk and her quartet of girl entertainers played most attractive music and sang several songs. Later the same quartet played with the four piece orchestra in the dining room for the dances. The guests were received at the door by Mesdames Stella Mason and Mildred Parker president and social chairman of the club.

About sixty couples danced during the evening.

BOTH STYLES POPULAR

The 1922 model fur coat may be long or short but it must be smart. Black caracul and kolinsky make the long one and moleskin and fox the short one pictured here. For early winter the jacket with the hip band is most popular, but the longer model will have its innings later.

At the annual business meeting of the Women's Golf association of the Country club Thursday Mrs. W. W. Silk was elected president of the association for the ensuing year taking the place of Mrs. W. B. Pyron. Members of the association were entertained with a Flag Tournament Thursday following the business meeting by Mrs. Pyron, who leaves soon to make her home in Fort Worth. Much regret at the coming departure of one of the best players and most popular members of the club was expressed by her friends at the meeting.

In the election Mrs. H. G. Hampshire was named vice president of the association, and Mrs. P. E. Thames, secretary-treasurer. A few other matters of minor importance were attended to at the meeting after which practically the whole membership took part in the games. Mrs. Hampshire played low and won the first prize offered by the tournament hostess, a handsome vanity bag. Mrs. Silk the second a bottle of perfume and Mrs. Couper the consolation a silver King ball. Mrs. Weldon won the Silver King ball in the putting contest.

Luncheon was served at noon to Mesdames Hampshire, Weldon, Hatchett, Couper, A. H. Brittain, W. W. Silk, Frank Van Wormer, Eby Weldon, Kendall, Witcher, Pyron, Anderson, Julian, Hobo, Walker, Fennell, Silk, Hardwicke, Batts, Thames, Heyser and Miss Celeste Long.

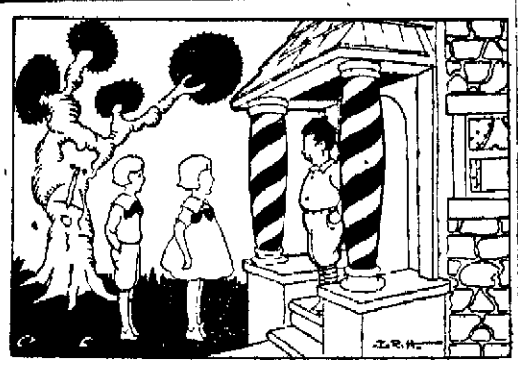
ADVENTURES OF THE TWINS
JACK HORNER NEXT
By OLIVE ROBERTS BARTON



Jack was standing at his front door.

The next place the Twins came to was the house of Jack Horner. Jack was standing at his front door.

"Hello," said he when he saw the Twins.

"Hello," said Nancy and Nick. "We are hunting for Mother Goose."

"No answer Jack. I don't like brooms. I only like raisin pie and plum cake and fruit pudding. Would you like to have some?"

"No thank you," answered Nancy, "but we'll have to hurry now and we can't stay. We thought you might have the broom to sweep up your crumbs."

"Well, as to that," replied Jack, "I never make any, for I eat all mine. But you might ask Tom Tucker."

The Twins thanked him and the Green Shoes whisked them off to Tom's house.

As usual, he was eating bread and butter.

"Any brooms here?" asked Nancy, sticking in her head. "Mother Goose has lost her's and we're after it. The cobwebs are getting so thick in the sky the sun can scarcely shine through."

"I'm not an old woman," growled Tommy with his mouth full. "Whatta I want with brooms? Go and ask Dame Trot or old Mother Hubbard or the Old Woman Who Lives in a Shoe. Mebbe they've got it."

"I don't think so," said Nancy. "Dame Trot's cat would lick up her crumbs. Mother Hubbard has no crumbs to lick up and the Old Woman in the Shoe has no time to sweep."

Suddenly Tom had an idea. "You might ask on that star over there," he said. "It's called Mars, and lots of people live there."

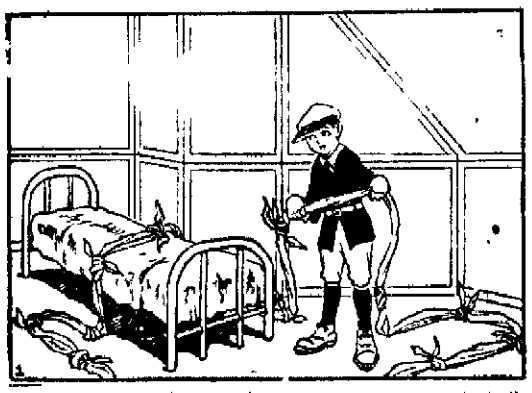
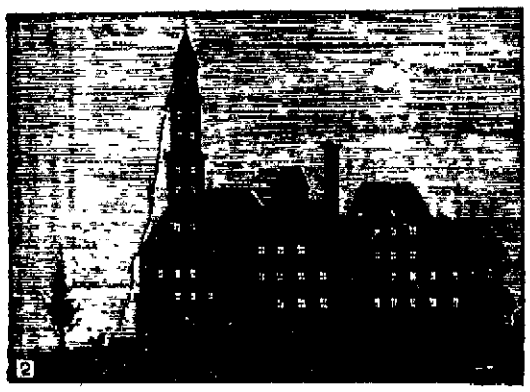
JACK DAW'S ADVENTURES
By ELTON



All day Jack had been planning on a means of escape. He finally decided that the only means would be to get down to the ground on some kind of a ladder. He quickly pulled all the bed clothes from the bed and tied them end to end.



Jack waited until midnight. Then he tied one end of his sheet ladder to the bed post. He then climbed out quietly and started down. His faithful dog Flip was waiting below and barked a greeting. Jack slid down the rope hurriedly but quietly.

"Be still, Flip," said Jack as he neared the ground. "Do you want to wake the guard up?" The boy then dropped off the end of the ladder. Flip didn't bark again but he jumped up and pawed at Jack. He was glad to see him again. (Continued.)

Pleads Guilty, Asks to go Unguarded to Prison to Serve Term

Hunter Russell entered a plea of guilty to the charge of forgery before a jury in the 30th district court Friday morning which plea was received by the court. The jury returned a verdict of guilty in accordance with the plea and assessed his punishment at two years confinement in the state penitentiary.

The defendant waived his right of two days before filing a motion for new trial and asked the court that sentence be pronounced upon him at once so that the two year term would begin immediately.

He further asked that he be given permission to entrain for the state prison at once, stating that he would go unguarded. The request was not granted inasmuch as the law will not permit it.

The defendant stood charged with having forged the name of Henry Hund to a $35 check last November.

BANDITS ARE KILLED ROBBING PASSENGER

bers took and declared the reports that the amount ran as high as $100,000 to be unfounded rumor.

Kennedy was 53 years old and Logan 23.

ATTEMPT MADE TO ROB MAIL TRAIN ON FRISCO

MEMPHIS, TENN., Nov. 3.—Jack Kennedy alias "the quail hunter," an escaped convict from the Missouri penitentiary, and an unidentified bandit were shot and killed last night in what police officials declare was an unsuccessful attempt early today to rob the mail and express cars of the fast St. Louis-Memphis Frisco train No. 302 which left the former city at 8 o'clock last night. Six or more masked bandits comprised the gang.

Reports regarding the holdup are conflicting one reporting that a number of pouches of mail and some express matter were secured by the robbers while another report says that the robbers were driven off before they could enter the mail car.

The holdup was planned in Memphis about 10 days ago, according to postoffice inspectors here, who were "tipped off" to the plans of the bandits and as a result, night trains in both directions on the Frisco between Memphis and St. Louis have carried extra guards for the past week. According to the original plans, officers say, the holdup was to have taken place in north Arkansas, but the theft of an automobile which it was planned to use upset the plan of the bandits and caused a delay. In the meantime, learning that they were being watched by postoffice inspectors, the men left Memphis, but were traced to Seventy-Six, Mo., near where the holdup this morning occurred. Since that time one or more of the band has been constantly watched. When the time came officers on the train were ready to repulse the attack.

No information as to the method used to hold up the train was received by Frisco officials here, although they are of the opinion dynamiting of the track near Marshfield, Mo., earlier in the night may have been part of the plan.

When the train was brought to a stop at Mitten, Mo., after midnight, a fusillade of shots was fired by the bandits who escaped, to be scattered along the track. This fire was returned by guards. In the fight which ensued Kennedy and another bandit were instantly killed. The remainder of the band which members of the train crew said numbered at least six, made their escape in an automobile.

Arrangements have previously been made by postoffice inspectors to form posses in the neighborhood of Seventy-Six, and according to long distance telephone messages from there this morning, a number of posses are in pursuit of the bandits.

The Martin Printing company which was awarded the contract to print the official tickets in Wichita county was also sent a similar notice. The ballot has been set up and a proof sheet was submitted to the county clerk and county auditor, Friday morning and returned with corrections.

The name of Earle B. Mayfield remains on the ticket as the democratic nominee for United States senator.

The county clerk received a telegram sent as a night letter, Friday morning from Attorneys McClain, Scott and McClain of Fort Worth in which the clerk was advised to insert the name of Earle B. Mayfield on the ticket. This telegram was sent from Fort Worth at 8.56 p. m., Thursday night while the one from the district clerk of Limestone county was filed at 11.44 p. m. Thursday night.

J. L. McMahon and Earl Clayton of the Texas company, are in Nocona.

If the official ballot next Tuesday has the name of Earle B. Mayfield printed upon it for United States senator while the injunction is in force, the ballot cannot legally be counted for him.—(Political Advertisement.)

MAXWELL IS VICTIM OF THIRD HARDWARE BURGLARY

The third hardware house to be burglarized this week was entered Thursday night when thieves "filled their order" at the Maxwell Hardware company's warehouse. Spark plugs, Ford vibration points base balls and mits, gloves, fishing tackle, nickel plated pliers and Winchester shells were among the articles missing. Earlier in the week Nash Hardware and Lewis Jones Hardware stores were burglarized. No arrests have been made in any of the burglary cases reported this week.

LOSS IS SUSTAINED IN FIRE ON HUMPHRIES ST.

Fire of unknown origin broke out at 3:25 Friday morning in the 12-room residence of Hon. Lewis at 408 Humphries. The alarm was turned in immediately but the fire had gained considerable headway and had spread to the adjoining houses when the department reached there. The roofs of the houses at 406 and 404 Humphries were badly damaged but the fire was kept under control and the flames confined to the Lewis home. A total loss of the house was estimated at $2000; it is not known if insurance was carried on the property.

Division Nine of the First Christian Aid society will have a food sale at the White House market Saturday morning at 9:30.

Oh, Well, a Deer Is a Deer, Even If It Is Kinder Tame

J. H. Gardner, who is one of a party of Wichitans hunting in Kerr county, was the first one of the bunch to kill a deer.

He was able to creep up close to the animal and with a well-aimed shot brought it down.

When he drew near to gase proudly at the body of his victim, he noticed something on its neck. It was a rope.

And now the children on a nearby ranch are mourning the loss of their pet, they had gotten it so tame it would come and eat out of their hands.

BAROMETER OF POLITICAL AND PUBLIC OPINION WILL BE READ IN RESULTS OF TUESDAY'S VOTE

WASHINGTON, Nov. 3—America's barometer of political and public opinion will be read at the polls Tuesday, November 7, when another national house of representatives, more than a third of the senate membership and 32 governors of states, together with state legislatures and local officials will be chosen.

Nationally the general election Tuesday is the first of the Harding administration thus it is regarded by many as a test, bearing upon the presidential campaign. The republican lines go before the country largely on the record of President Harding and the present congress an issue accepted by the democratic and other opponents.

Excepting in Maine where the elections were held last September, the new sixty-eight congress of 435 members will be chosen Tuesday from all states. There are no senators in 31 states to be elected. The states electing governors are Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Idaho, Georgia, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Nevada, Nebraska, New Hampshire, New Jersey, New York, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Wisconsin and Wyoming.

The battle of ballots throughout the country largely is between the two dominant parties, republican and democratic. The election is marked by virtual passing of the progressive or bull moose party, socialist, prohibitionist, farmer-labor, single tax and other organizations, however, contribute to the ballots here and there with some independent and other miscellaneous candidates. Also marking the campaign and often affecting the congressional contests are issues involving the Ku Klux Klan and other questions.

Congressional Candidates.

Congressional candidates mostly are for the sixty-eight congress which will not assemble until December, 1923 unless a special session next summer should be called. Of the 35 senatorial seats at issue, 32 are for regular terms of six years beginning in the next congress and five to fill vacancies by death and resignation. In addition to the 435 members of the next house to be chosen, there are three to fill vacancies in the coming winter session, two from Nebraska and one from Illinois.

Capture of control of the next house is the avowed objective of the democratic organizations or, failing this, material reduction of the present republican majority of 165. The house now has 296 republicans, 133 democrats and one socialist, with eight seats vacant. A turnover of more than 60 seats is required for loss of the next house by the republicans.

The senate now has 59 republicans, one republican-progressive and 36 democrats, with 17 republicans and 15 democratic seats in the next congress at issue. Tuesday. Democratic leaders have said that only a miracle would change the political complexion of the next senate at this election.

Both Parties Hopeful.

Republican leaders expect to increase their senate majority by a few members, and they also say they expect defeat of a number of sitting house members, swept in two years ago in the Harding victory. Democratic managers on the other hand are predicting some senate as well as house accessions. Principal spots where republicans hope to oust democratic senators and elect republicans are: Ohio, President Harding's state, where Senator Pomerene democrat, is opposed by Representative Pess republican, former congressional committee chairman. Missouri, where Senator Reed democrat is opposed by R. R. Brewster. Rhode Island where Senator Gerry, democrat, is pitted against former Governor Beckman. Nebraska where Senator Hitchcock, democrat and former foreign relations committee chairman is fighting R. B. Howell republican national committeeman. Wyoming, where Representative Mondell, republican leader in the house is running against Senator Kendrick democrat. Utah, where Senator King democrat is seeking reelection against Ernest Hamberger, and New Mexico, where Senator Jones, democrat, is opposed by Stephen B. Davis Jr. Democratic hopes of senatorial gains largely are centered on New York, where Senator Calder, republican, is opposed by Dr. Royal C. Copeland. New York health commissioner. New Jersey, where Senator Frelinghuysen, republican, is opposed by Governor Edwards democrat. North Dakota, where former Governor Lynn J. Frazier republican with non-partisan league backing is against J. F. T. O'Connor, democrat. Maryland, where Senator France, republican, is fighting William Cabell Bruce. Indiana where former Senator Albert J. Beveridge is pitted against former Governor Samuel M. Ralston. Connecticut, where Senator McLean, republican, is against Thomas J. Spellacy. Washington where Senator Poindexter republican is against C. C. Dill, former representative and Michigan where Senator Townsend republican, is opposed by former Governor Ferris.

There are 35 senators who are candidates for continued service. Three, Senators McCumber, republican, N. D., New, republican, Indiana, and Culberson, democrat, Texas, were defeated for renomination in recent primaries, while three more whose terms expire March 3 next, Senators Page, republican, Vermont, Myers, democrat, Montana, and Williams, democrat, Mississippi, are retiring and did not stand for renomination.

Women Candidates.

There are two women candidates for the senate from Minnesota and Wisconsin and a score for the house with many others for municipal and other local offices. The present and first woman senator Mrs. W. H. Felton of Georgia, appointed to succeed the late Senator Watson is not a candidate for election while the lone woman house member Miss Alice Robertson, is fighting for reelection in a normally democratic district.

For the 435 house seats there are 1,016 candidates, including 379 present members—245 republicans, 120 democrats and the one socialist. Fifty-seven sitting members 46 republicans and 11 democrats did not seek reelection. Prominent among these are "Uncle Joe" Cannon and Representative Fordney of Michigan, chairman of the ways and means committee.

Fifty-seven house candidates are sure of winning Tuesday, being without opposition and some holding nominations of both republican and democratic parties. Of these 43 are democrats and 14 republicans.

Breaks in several solid state delegations in congress are predicted. While the solid democratic contingents from southern states are expected to show no change, democratic leaders are predicting breaks in the solid republican ranks now coming from Ohio, Nebraska, Connecticut, Indiana, Kansas, Michigan, Minnesota, and possible Oregon, West Virginia and Wisconsin.

FRIDAY NOVEMBER 3 1922

NO BOLSHEVISM IN AGRICULTURAL WEST.

A good many of the things advocated by Brookhart in Iowa and Frazier in North Dakota go pretty far for republicans and there are a good many republicans in those states who are balking at these candidates and the things they advocate, but there is no indication of anything like a general breaking away from them Brookheart and Frazier and the other radical republican candidates in states where the republicans have the advantage are almost certain to be elected

The New York Evening Post discussing the political outlook in the Middle Western states says

"Suppose you were an Iowa farmer—many of our desk worn readers like to suppose now and then—and the end of the fall ploughing left you a little time to ruminate Suppose Tomkins the elevator owner told you that hod give 31 cents for your oats if they tested well and that when you cleared out your left over corn you could get 51 cents for it, and suppose you saw in the village weekly that your neighbor Pierce had shipped two cars of hogs to Chicago where they fetched $9 25 Suppose these prices gave you a sickening sense of failure and caused you to sit down with your old account books and do some figuring You would find that you were offered about 80 per cent of the pre-war normal price for your oats 90 per cent for your corn 115 per cent for your hogs and 99 per cent for your wheat

'Suppose that, noticing the station agent's new car you found that railway wages were averaging about 188 per cent of pre-war level and freight rates 150 per cent, while New York factory workers were getting 200 per cent. Suppose you learned, in looking over the mail order catalogues, that the general cost of living is 160 per cent of the pre-war cost. Suppose that your winter order of coal cost you 250 per cent as much as in 1913 Suppose in short that you concluded that you had toiled all year without making more than a bare living while all other groups in the nation were growing more prosperous that you saw yourself a sort of helot kept busy fourteen hours a day on a pittance to raise food for urban workers who keep busy eight hours a day and then go to the theater If Smith W Brookhart came along assuring you that something is radically wrong with the present order and that it is time to enlist with progressiveism against reaction would you smile incredulously and go vote for a stand patter'

"Mark Sullivan finds that the rural regions of the upper Mississippi Valley are a territory in which politics is less a matter of republican vs democrat than of radical vs conservative Louis Seibold writes the Herald from Des Moines that 'for the first time the paramount issue is conservatism vs radicalism' Both fear that the farmers will enlist behind financial heresies and dangerous demagogues Undoubtedly the farmer feels a tendency towards rebellion he was deflated first and the deflation is continuing altogether too long and too hard But these are reassuring elements in the situation which should restrain men like Mr Seibold from writing of hysteria and an almost bolshevist movement Nowhere this year has a third party movement cropped out the farmers being content to nominate the more radical republicans like Brookhart and La Follette The farmer today is far better educated than a generation ago and would be no easy prey to cheap money demagogues Western agriculture has shown a realization that its chief dependence for relief must not be upon politics but upon the farmers own organizing ability If the farmer was the first to be deflated he was also the first to benefit from rising prices and he retains some of his war time profits Finally there is every indication that the farmers present plight will soon be ameliorated by better returns for his products

"Republicans have tried to soften the blows dealt by economic conditions to the farmer They have helped him by loans through the war finance corporation The last congress passed a law to encourage farmers cooperative associations It enlarged the capital of the farm land banks it brought the packers under government supervision it gave the agriculture department power to check improper grain speculation and it continued a generous road building program Senator Capper has just outlined further legislation needed the chief item being a bill to give the farmer full long-term credit facilities So far as national politics go the farmers are likely to concentrate upon this and upon electing congressmen who will ask why when oats are 92 per cent of pre-war prices freight rates are 149 per cent of pre-war rates They are likely to demand more government in business It is to be hoped that they will be spurred to enlarge their cooperative marketing organizations But a big vote for Frazier or Brookhart is not bolshevist nor even unhealthy

GLAND FAKERS

Beware of patent medicine fakers who cashing in on the publics interest in monkey glands are flooding the market with pills and liquid dopes heralded as marvelous glandular cures

The arrival of these parasites was to be expected

Every new discovery is trailed by a mob of unscrupulous fakers who fatten on public credulity

Thirty three years ago the original gland doctor Brown Sequard was ridiculed when he came forth with his theories about restoring lost youth and stimulating mentality through the use of endocrine glands

Today legitimate scientists admit that Brown-Sequard was on the right trail. Wonderful possibilities are opened up

But the public should remember that tinkering with the body's endocrine glands is in its infancy and that the treatment is extremely dangerous unless administered by a medical man skilled in this line

A great deal is already definitely known about the thyroid gland in the neck—its partial control of intellect and its effect on the general health particularly heart, nerves and hair

But thyroid treatment is dangerous except in the hands of a skilled physician For instance calming down an over active thyroid is apt to leave the heart weak

Of the other glands much less is known Their general functions have been defined But there are few—even among experienced doctors—who can stimulate or calm these other glands without definite perils to the patient

In the hands of a quack the endocrine glands are apt to become doors leading to physical breakdown nervous collapse or downright insanity

TODAY'S TALK

By GEORGE MATTHEW ADAMS

THE GOOD SIDE

One thing is quite certain—this world is never going to be perfect And another thing is also as true—the people in this world are never going to be perfect

Defects and a certain leaning toward error and mistakes, remain the common lot of us all

And yet, knowing these things to be a fact there are few of us who do not see the faulty side of this world and of its people first.

Yet if you play up to the good side of a child or a friend, dividends of happiness immediately roll your way

And just the minute that you stop brooding over the past and its mistakes and lost opportunities you begin to take real hold on life Life is a pretty drab and dull affair otherwise

The good is always in the majority If it looks otherwise to you, you need new eyes Climb to higher ground

The good side of a human being is always his sunny side Find it and you too will be blessed

Of all impossible worlds ' once wrote Chesterton this one is the best And since it is the only sample of a world that we have had brought to us why not be happy in it and do that we can to make everybody else happy in it?

There is no more profitable way to make this a grand world than to keep discovering the good side of people

Eliminate all distrust. Remember your human frame and how full of faults it is Put yourself into the place of the one you criticise—and then imagine your position If you are hurt by thoughtless words so then must others feel this same hurt when you forget

The business of living is too important an affair to be muddled up with the throwing of stones

Let us pick flowers for the living—and let us cherish the thrills that their fragrance returns

It is rare that a human heart is out of place

JUST FOLKS —By— Edgar A. Guest

THE MAN WHO GETS PROMOTED

The ordinary fellow does an ordinary task
He's mighty fond of good enough and lets it go at that
But the chap who gets promoted, or the raise he doesn't ask
Has just a little something more than hair beneath his hat.

The ordinary fellow lives an ordinary day,
With the ordinary fellow he is anxious to be quit,
But the chap who draws attention, and the larger weekly pay
Has a vision for the future and is working hard for it.

He tackles what he has to do with the will to see it through
He does a little thinking of the work that comes to hand
His eyes are always open for the more that he can do
You never find him idle merely waiting a command

The ordinary fellow does precisely as he's told
But someone has to tell him what to do and how and when
But the chap who gets promoted fills the job he has to hold
With just a little something more than ordinary men

Denison Herald The oil and gas department of the Texas railroad commission is enraged at one of its employes and has summarily dismissed him from the service The dismissal notice was dispatched without previous warning by the chief of the department advising him that on the following Tuesday his commission as deputy supervisor would cease and directing that he turn over to his successor all state property and funds in his possession Since it is not of record that any complaint for dereliction of duty had been lodged against the employe it is presumed that up to a certain time his work had been entirely satisfactory to his employer—the Texas railroad commission Evidently something was done or some act committed by the employe that unfitted him for service impaired his usefulness as deputy oil and gas supervisor of the state of Texas hence his dismissal by telegram—a letter through the ordinary channels of the postoffice would consume too much time Either the official had grievously offended or was about to offend in some manner that would bring disrepute to the commission therefore in order to protect the rights of the public against an unworthy servant the quick axe is employed to notify him that he goes it to vamose [illegible] make [illegible] around [illegible] out the [illegible] he has so long occupied [illegible] the railroad commission [illegible] a perfect right to discharge McNamara But the circumstances of his dismissal are of such a character as to draw a lot of suspicion even when no reason are given for the dismissal [illegible] among [illegible] the [illegible] which [illegible] the name of [illegible] Mayfield appears as the democratic nominee for [illegible] senator one Mr McNamara was referred to as the star witness for the plaintiffs He was so styled because he positively swore that he sent Mr Mayfield by registered letter two hundred dollars as campaign contribution which Mr Mayfield flatly denied in his statement of receipts and disbursements and which he also denied receiving [illegible] a summons to appear A similar following publication of McNamara's name as a witness for plaintiffs in which a very interesting conversation is alleged to have taken place Anyway it was suggested at that time that service of the deputy would be dispensed with on the last day of the month The trial came on and the witnesses testified fully to the identity impressed the court and the jury that he was sworn [illegible] The next thing the official hears is that he has been fired with no reason assigned therefor It is natural that he should insist on knowing the cause of his dismissal and it is also natural that the people of Texas would like to know whether not [illegible] the commission in discharging a hitherto faithful servant without giving him a hearing It appears that the price of employment on the railroad commission at least in the land and gas division thereof is complete servility to Mr Mayfield—even to the extent of committing perjury if necessary [illegible] Do that and jobs are safe Refuse and the [illegible] for the obstinate [illegible] who insists on assertion and maintaining his manhood [illegible] Mr Mayfield regards position under him as political perquisites to be filled where the will do the most good [illegible] political aspirations [illegible] and all is well and good [illegible] east [illegible] darkness Perhaps Mr Mayfield assumes that by discharging McNamara he gave a report to his own veracity which was challenged by the employee at the political In truth he has added [illegible] a monument to the madness that pretends his political [illegible]

Market price of grains has advanced 40 cents a bushel in Europe, but only 10 cents on American farms Julius Barnes says this in a speech at Chicago He blames it on the breakdown of our transportation system

Rather difficult to follow this reasoning since farm prices smashed below normal when the railroads had more idle cars than they knew what to do with

1

The Eskimoes are northern folks
Who live in caves of ice
And wats it our bisness how cold it is
As long as they think its nice?

2

They have snow and ice all summer long
And also in spring and fall
But naturally in the winter time
They have the most of all

3

The ice and snow keep each other cold
And the days are 8 months long
So naturally from one one day
It must feel as if nothing was wrong

All Eskimoes dress in bear skins
In their efforts to keep warm
And also they may feel comfortable
It makes them thick arround the form

The air up there is too cold for fruit
Or even smaller things such as bees
So one of their favorite foods is wales

EPISODE TEN
The Twilight of Mike
CHAPTER I

When Quintana turned like an enraged snake on Bard and drove him to his destruction, he would have killed and robbed the frightened dude broker had he dared risk the shot He had intended to do this anyway sooner or later But with the noise of the hunting dogs filling the forest, Quintana was afraid to fire

Not an hour like Quintana was engaged, chased and shot at by State Trooper Jansen

Quintana turned And what with the drive growth of rattling beech and oak and the leaves falling birch and poplar leaves Jansen lost Quintana and then his trail

The state trooper had left his horse at the cross roads near the home of Darragh a masked exploit where he had stopped and robbed hard and now Jansen hastened back to find and mount his horse and gallop straight into the forest growth timber

There was no sound of dogs when Jansen rode in on the narrow spot-tell trail where he had lost sight of Quintana into the dense growth of saplings that bordered it

Once very very far away westward in the direction of Star Pond he fancied he heard a faint baying in or that might have been hounds baying

He was right And at that very moment Bard was dying horribly among the trapped otters as big and fierce as the dogs that had driven them into the drain

Somewhere among the birches between him and Star Pond was Harrod Place And the idea occurred to him that Quintana might have ventured to ask food and shelter there Yet that was not likely because Trooper Stormont had called him that morning on the telephone from the Hickory Lodge

He leave to reassure himself Jansen rode as far as Harrod Place and found game wardens on duty along the line

Then he turned west and trotted down to the hatchery where he saw Ralph Weir talking with instructions to a group of decoys —Hal Smith Weir was a Fair One and he stopped out for Hal and went to Harrod Place Hal and I—

Who is Hal Smith? she asked

Ma'am

The girls flower like face turned to Weir [illegible] she repeated

Weir [illegible]

Is he a Trooper [illegible] she demanded in a [illegible] tone of the commissioner [illegible] Are you one too?

Weir gazed miserably at her unable to formulate a convincing [illegible]

She flushed swiftly as the horrible suspicion seized her

Is this Harrod property? Is Hal Smith old Harrod's heir Is he

My God Miss—

He is—

Listen Miss—"

She flung open the door and came out into the living room

Hal Smith is that nephew of old Harrod she said calmly He has [illegible] Darragh And you are one of his wardens And I want to stay here Do you understand

Weir wiped his hot face and [illegible] The cat was out there was a hole in the bag and he knew there was no use in such lies as he could tell

He said All I know Miss is that I was to look after you and get you [illegible] whatever you want—

I want my clothes!

Ma'am

My clothes she repeated impatiently I've got to have them

Where are they ma'am asked the bewildered man

At the same moment the girl's eyes fell on a pile of men's sport clothing—garments [illegible] from Harrod Place to the hatchery on a leather lounge [illegible]

With a glance at Weir [illegible] to the heap of clothing [illegible] it about selected [illegible] of woolen socks gray shirt puttees shoes flung the garments through the door to her own room [illegible]

[illegible] she [illegible] her breeches

Now she was ready She was [illegible] catch Mike's daughter too he'd spoil her face for life—

What next' demanded the trooper impatiently Tell your story and quit thinking how you were misused

He told me to stay in the shanty for an hour or he'd do for me good cried Fry Once I got up and went to the door and there he stood by the brook wolfing my lunch with both hands I tell you he cursed and drove me like a dog inside with his big pistol—my God—like a dog

Then the next time I took a chance he was gone And I lost it here to get me a rifle— the boy broke down and sobbed He drove me around like a dog—he did

You leave that to me interrupted Jansen sharply And to Weir You all George had better get a gun specie That fellow might come back or go to Harrod Place if we starve him out

Weir said to Fry 'Go up to Harrod Place and tell Jansen your story and bring back two 45 's And quit snivling You may get a shot at him yet

Behind the curtains of her open window Elsie strayer lying on her bed had heard every word

Crouched there beside her pillow she peered out and saw Trooper Jansen ride away saw the Fry boy start toward Harrod Place on a run saw Ralph Weir watch them out of sight and then turn and re enter the lodge

Wrapped in Darragh's big blanket robe she got off the bed and opened her chamber door as Weir was passing through the living room

Please—I'd like to speak to you a moment she called

Weir turned instantly and came to the partly open door

I want to know she said where I am

Ma'am

What is this place

It's a hatchery—

Whose—

Ma'am

Whose lodge is this Does it belong to Harrod Place

Were Hooth runners Massachusetts Weir muttered [illegible] instructions [illegible] —I'd like Hal Smith [illegible] Fair One and [illegible] for Hal and [illegible] to Harrod Place Hal and I—

Who is Hal Smith? she asked

Ma'am

The girls flower like face [illegible] she repeated

Weir [illegible]

President Harding One of 57 Varieties But Is Not Pickled

WASHINGTON Nov 3—Washington is chuckling over a joke on the president Yesterday was his 57th birthday and he was receiving a delegation of Texans who had called to urge the appointment of Judge Nelson Phillips of Dallas to a place on the United States supreme bench They felicitated the president upon his natal day and he replied

"Yes I am now one of the 57 varieties," referring to a nationally known advertising phrase

"I trust Mr President said one of his callers with a twinkle in his eye it does not necessarily follow that you are pickled and President Harding joined in the laugh at his own expense

Coyotes Outfitted With New Equipment for Cameron Aggie Game

[illegible] team ever [illegible] a game in per[illegible] equipment quoth Coach Jim Jones Thursday after[illegible] and so saying he began [illegible] new jerseys stockings and [illegible]

[illegible] when the [illegible] up for the kick off Saturday against the heavy Cameron Aggies [illegible] will be a different team [illegible] flashing crimson jerseys with a single black arm stripe [illegible] and pants attached. And likewise the stockings [illegible] with a single black calf stripe. Numbers a foot tall [illegible] in black and white against the jerseys crimson make the team look more representative than ever before in the history of Wichita Falls.

Every member of the squad is ready to start. Both Coffey and Walker were at their regular places yesterday and neither showed any signs of past injuries.

Not a little suspicion was attached to a Ford bearing an Oklahoma license which drove up to the park and three of its occupants sought to witness the practice. They were not permitted to enter the lot even though they avowed themselves coyote supporters but they were strangers and no one knew any of the three. Evidently the Cameron Aggies are planning to do battle with the Coyote for sure tomorrow.

Both second string squads went through hard scrimmage practice for an hour yesterday with two or three of the regulars sent in for a bit of experience.

Baldwin's punting is the outstanding feature of individual improvement thus far this season. Yesterday his tall looping spirals averaged 50 yards with many reaching the 60 mark to offset shorter ones. If the Coyotes are forced to a defensive game tomorrow, then Baldwin can surely keep them in the running. His kicks allow time for the ends to get well down under them and yet they carry the required distance really above high school requirement.

The aggregate strength of the Aggies is more of a conjecture than anything else but Jones is not taking any chance with his huskies and will send the maximum strength to the field as play opens. The game will doubtless be scouted by both Fort Worth and Cleburne men possibly coaches. Jones will not likely use any plays not necessary but he may make a last minute decision to try out the open game which has been drilled during the past three weeks and has yet to be tried.

Whether or not the style is varied, fans are going to see a game well worth while and loyal followers of the Coyotes are wondering today just what to do.

Coach Jolly of the Cameron Aggies announced the personnel of his squad for the Saturday game as follows: Ball, Jackett; Green, Rhodes; Fletcher, Wadell; Center, Rhoden; Sharp, Hilltop; Buckwalt, Morrison; Sherman, Mock; Wright, Hazel and Miller. The team will make the journey overland Saturday morning and should arrive in the city not later than noon. They will rest at the St James hotel until time for the contest.

A pep meeting is scheduled for 3:30 o'clock this afternoon at the high school and the entire student body will be prepared to support the team in the Aggie game.

Announcement was also made today that single quarters would not be permitted at all in future games. Here before a number of fans and students have followed the play up and down the field and stood between those who paid admission to the stadium, taking a clear view of the game. Coach Jones stated emphatically that the same will be enforced as far as the coaches have control in the practice.

[illegible]

Several shifts have been made during practice during the last week and a change or two is probable.

Yank Boss May Release Meusel

From [illegible] the baseball [illegible] rumors will come [illegible] the poor [illegible] in the [illegible] players on the [illegible] traded over [illegible] the winter.

In the early [illegible] the word was [illegible] big deal was being [illegible] between New York and Chicago [illegible] the dope New York [illegible] Collins and Falter for [illegible] Hard, a couple of [illegible] and a wad of [illegible]

The deal fell through [illegible] developers that the [illegible] "Thevvered" was [illegible] tugging of the Yankees to [illegible] part with [illegible] always been [illegible] despite the fact that [illegible] aware of Meusel's [illegible]

No one is more [illegible] Meusel's great natural [illegible] tugging, and he felt sure [illegible] job would [illegible] himself and develop [illegible] great stars of the game.

Meusel's failure to run [illegible] sacrifice on two occasions was [illegible] as the real play coupled [illegible] other mental errors [illegible] caused Huggins to weaken [illegible] after all the talked of [illegible] deal may become a possibility.

THREE REGULARS SOUTHERN CALIFORNIA SQUAD

The University of Southern California enters [illegible] Pacific Coast [illegible] from [illegible] inexperienced but [illegible] Only three [illegible] eleven are [illegible] are the three stars [illegible] Coach Henderson must build a team [illegible]

The first big game of the year for [illegible] California is the meeting [illegible] California on [illegible] Last [illegible] California [illegible] 7

[illegible] Henderson has little hope [illegible] of showing [illegible] Harrison's team [illegible] Washington St [illegible] raw material [illegible] shape.

Charlie Dean peer of the line hitting fullbacks on the coast last year is gone. In his place Coach Henderson has Roy Baker who has already earned the sobriquet of "Ironsides" from his teammates.

Either bids fair to equal the deeds of Frank Baker has the ability and needs only the polishing that comes with experience. Of the new men here is expected of Baker than any other man in the squad.

MICHIGAN BOASTS TWO STARS

CAPTAIN G FRIEL HALFBACK KIPKE

By PHIL EVANS

In Captain Friel and Halfback Kipke Michigan has two all stars for the All Americans.

No [illegible] has [illegible] a greater [illegible] than Friel [illegible]

For the [illegible] was in mainspring [illegible] Michigan line. It was always [illegible] giving things [illegible]

No man could [illegible] the high and [illegible] game at the [illegible] which Jochel played the first [illegible] years. It was beyond the power of any human being. With a few minutes to play in the third period the big fellow [illegible] totally exhausted.

Even when three or four of his teammates were carrying him off the field the old spirit was still there. He tried to inspire his team mates that he was all [illegible] tried to break away in [illegible] grasp but the punch was gone and he was forced to give way as the big crowd cheered him. He [illegible]

First Kicks Field Goal

If any one man stood out as the defeat of State's Michigan team was captain Paul Goebel. In the first period he kicked a field goal from the 30 yard line. That goal gave Michigan the needed confidence it needed to defeat Michigan State.

Only a few minutes before Goebel had made possible the chance of a kick goal by [illegible] the high secondary defense and [illegible] Workman's punt. The blocking of that punt was the first block of the game.

In the second period Michigan State's [illegible] and [illegible] poor pass by the State center [illegible] hit Blair on the back because he [illegible] too quickly caused a [illegible] Captain [illegible] was the hero following the [illegible] he recovered it for [illegible] Once again the State [illegible] but [illegible] Goebel to filter [illegible]

It was [illegible] through the [illegible] State seemed to realize his [illegible] in the Michigan line [illegible] he was forced to take [illegible] of punishment. No State [illegible] Goebel with kid [illegible] he was [illegible] on [illegible] a short count [illegible] failing to come back [illegible] of the third period.

PENN STATE-NAVY GAME PLAYED IN CAPITAL TODAY

WASHINGTON Nov 3—Penn State and Navy met here today in the first football classic to be played in the national capital in many years. American league park converted into a huge amphitheater will seat 8,000. Members of the cabinet high navy and army officers and many others in official life were numbered among the spectators.

The team of major league players now on their way to the orient to play the first game with Kelly's circuit at Tokio on Nov 4. The opening game of the trip will be at Manila on Dec 30.

Ruth Maisel comeback certainly is doing no harm which Jack Dempsey will not use. Looks like an opening for the banished.

TENDLER-MENDELSOHN SCRAP TODAY IS WATCHED

MILWAUKEE WIS Nov 3—Lew Tendler Philadelphia lightweight and Johnny Mendelsohn local 135-pound champion are all set for their 10 round no decision bout here tonight.

Both of the boxers hold decisions over Rocky Mitchell who for years was a leading contender for the title and Milwaukee's champion.

Major Huggins by asking acceptance of the management of the New York Americans proves that he is a sucker for punishment.

LEGIONNAIRES MEET ARCHER CITY QUINT HERE ON SATURDAY

Local fans of the basket will have an opportunity of seeing a fast contest Saturday night in the American Legion gym when Wolford's fast quint tackle the Archer City aggregation.

The Archer City quint is the same as that which went into the finals for a state championship last year at Austin. They have been working diligently since school opened and are reported in top form.

The legion delegation has been working hard for three weeks and the team is rounding into great playing form. The legionnaires will be led by Ferguson high point man of the league last season and the three members Rodgers, Courtney, Freemen Rose, Wofford and three other army stars. These three are the dark horses of the squad and their identity will not be announced before Saturday night.

Although there have been half a dozen minor games thus far this season the last between junior college and Iowa Park the Saturday night game will be listed as the largest thus far.

The legion floor has been enlarged and accommodations for many more fans have been provided. The game will be called at 8:00 o'clock.

Ruth Must Train Or Pass As Idol

One year ago Babe Ruth was baseball's biggest hero.

Today Babe Ruth is regarded in the light of a very ordinary player by fandom.

Ruth because of his ability to hit home runs became the idol of the fans overnight. They are forgetting him just as quickly.

Just with the puny batting average of .118 was the bust of the [illegible] series.

Success in any sport depends on co-ordination of brain, eye and muscle.

Jack Dempsey is the heavyweight champion because he possesses those three requisites. Bill Tilden is the world's greatest tennis player for the same reason.

Babe Ruth when he was the talk of the baseball world because of his marvelous slugging powers possessed co-ordination of brain, eye and muscle.

For two years the brain end of the game has been passed up by Ruth. He has traveled along on past reputation. Little or no attention to training soon robbed the eye and muscle of their value.

Is Babe Ruth through or can he come back? That is a question of great interest to the New York American league owners who are building a new park seating 65,000 people. Ruth's slugging ability was called on to fill that park on many an occasion.

Strict adherence to training is Ruth's only hope. Will he realize it before it is too late? Possibly not.

Driftwood

Left By the Sport Tide

BY "SPIKE" COOPER.

Still They Do It.

Somebody launched an attack against the eligibility of Huh Hollis, flashing fullback and captain of the Austin College Kangaroos President Chandler of the T I A A says the honored member of Robertson's team must answer satisfactorily 18 questions or forfeit his place in Saturday's game. That was the edict of Tuesday and Hollis refused to speak.

Yesterday the league head extended the time limit in an endeavor to give the player a chance and Hollis now has until Saturday morning to come through.

Every one likes fair play. All like clean sport and the world is striving for better athletics. Even when ineligible players try to sneak through they get every leniency possible. Yet the practice continues. Cole has got much of the credit but often they are ignorant of the circumstances.

It is ordinarily the player who is to blame and it is the player who should suffer not the school. One star member thrown out can disorganize the classiest team a college has known for years and it is the school that suffers not the individual.

There is hardly any other solution it seems but at that the guilty one seems to escape.

Too Much Money

John McGraw has separated himself from the equivalent of $7,000 cash for Jack Bentley the Baltimore star who does everything.

Last season there was a franchise offered for sale in the Texas league at a reported figure of $80,000. Players are all. Then here comes McGraw and plunks down more cash than that for one player.

How do they expect the minor leagues to compete with such prices. Jack Bentley was ready to move to the big show and no minor league team could figure on trying to get him over the head of various money managers on the major.

Perhaps some other manager has a player equally as good. McGraw is the only one able to pay that price. He needs but one Jack Bentley at that figure so who's going to take the second player at the expected deserved and possibly demanded figure. Answer—Nobody.

Left Fearful

It's great to be an optimist
And keep the mind in style,
But the guy who runs a hundred yards
Can't win by a mile.

Beat the Aggies

All Texas eyes center on Waco tomorrow where Baylor is again favored to win the annual Bear Aggie battle.

It is that circumstances has been so lopsided in 1905 1907 1908 and 1921. He Was a certain seed problem and to date winners, but the record has yet to be written in the book.

Baylor has had a powerful offense for the big Bear around Bradshaw and Black.

Blue has lost Murrah Sanders and others and should noticeably lack the power.

But Baylor fans may find a lot of things happening.

And as Waco gets her fancy Boat the Aggies there may be an echo of disappointment a heart rending result to Baylor's ambition.

Washington is to get the first football classic of many years when Penn State meets the Navy in the American league park. It should be a good game but Navy fans will not the capital hill rest in peace tonight.

Right Careful

I have a regular old fashioned phrase
I guess from state to curse.
The more I read the less I play
And I'm from bad to worse.

GREEN NOTRE DAME TEAM FACING EIGHT HARD GAMES

Coach Knute Rockne of Notre Dame is one of the dramatic figures of the present football season.

After producing great teams at Notre Dame during his four years as head coach—teams which lost but two games in four years and which won three consecutive games from West Point, Nebraska, Indiana and Purdue—Rockne found himself absent entirely of the masters of the game who made history in 1921 when the football squad reported.

Ten men of that team had been picked for all American honors some expert or other. Paul Castner, who broke into a game during the right half position as the season closed, was the only regular who remained.

In the meantime Rockne who is also director of athletics, track coach and almost every other thing there is in Notre Dame athletics had scheduled Georgia Tech, Army, Nebraska, Carnegie Tech, Purdue and Indiana for major games. Depauw and Butler were included as soft spots. St. Louis University was no setups.

Kansas acted in like but St. Louis refused to be walked on. Then Depauw tied Indiana and Butler beat Illinois. Carnegie Tech tied and outplayed W and J, so beginning with Purdue Rockne faced eight hard games in a row—faced them with a team composed mostly of sophomores. And during the Purdue game he lost his most valuable lineman for the season—Tom Lieb—who went down with a broken leg.

Did Rockne quit? It was then that the wonderful personality which more than any other factor results in Notre Dame's greatness in football asserted itself. He told his men that he would be hard to satisfy from then on. That they must make up for lack of weight and lack of experience by something else—the something else which had given Notre Dame teams the title of "Fighting Irish."

"I don't want men who will go in and die gamely," he said. "I want men who will go in there and fight to live."

Billy Evans Says

Psychology plays its part in football like any other sport.

In the east a lot of people think the natives of the west are still wild.

Coach Howard Jones of Iowa must have feared a number of the young men on the Yale eleven were of that opinion.

When the Iowa team came on the field at Yale they were swathed in blankets and wore huge headgears.

When it came time to start practice they removed the blankets peeled off their huge sweaters and walked around the field in a strange, serpentine formation stretching their arms and legs and grunting lustily as they did so.

Before Yale could realize it Iowa had scored a touchdown and sewed up the game.

The first impression counts in sport and Iowa certainly gave Yale something to thing about as the western team made its entrance.

When Chuck Palmer of Northwestern ran 102 yards after recovering a fumble in the game with Minnesota, the claim was advanced that he had tied a football record of long standing. It was an error.

The football records credit McCaa of Lafayette and Bounton of Williams with runs of 100 yards.

McCaa made his run against Swarthmore in 1909 while Bounton performed his against Hamilton in 1920.

Palmer's run enabled Northwestern to get a 7 to 7 tie with Minnesota, the first big upset of the year in western football.

Centre versus Washington and Lee.

That game is already attracting much attention in the south.

The meeting of these two great teams will be staged at Louisville, Ky., on Nov. 11.

Centre by its great showing against Harvard is conceded to have another wonder team. After being scored on three times in the first period largely because the breaks favored the Crimson, Centre came back and outplayed Harvard the rest of the game.

Washington and Lee showed its strength in the game with West Virginia by holding that team to a 12 to 12 tie. West Virginia had previously defeated Lehigh 9 to 6, the first time a Pennsylvania team has been accomplished in 20 years by a West Virginia team.

While both clubs are rated strong it looks as if Centre should have a slight edge.

The longest drop kick of the season is to the credit of Gillespie of Yale who scored in that manner from the 52 yard line. As yet no player has run the length of the field from a kickoff in any of the bigger college games.

Nov. 18 is a gala day for the football fans. Some of the best cards of the year are scheduled for that date.

The slogan in the west relative to Iowa by all other Big Ten teams is: Beat the team that beat Yale. Coach Howard Jones is in for a busy fall.

Ready? Go!

LOCKSTEP SHIFT NOT NEW; USED WAY BACK IN 1891

By BILLY EVANS

Even in defeat Centre college keeps the football fans talking and affords copy for the scribes.

In going down to defeat before Harvard Centre came through with something new in football a lockstep formation already known as the Ding Sing shift.

The "lockstep" shift as used by Centre in the Harvard game made the fans stare in amazement and equally bewildered the Harvard eleven for a time at least.

After Centre had gained 86 consecutive yards by the use of the play and was in a position to score Harvard finally was able to solve Centre's perfect defense that nullified the surprise feature of the play.

In Harvard game Centre used four variations of the freak stunt. The shift called for lateral march of the entire team.

The players faced the side lines and with a lockstep marched slowly and deliberately to either the right or left according to the signal. Unlike most shifts there was no hurry to it, no attempt to get the opposition off balance with a quick maneuver and a quicker thrust.

Always the shift left one of the ends far to one side and he was the last man to receive the ball. Sometimes the shift called for just one movement to the right or left. Sometimes it called for a march to the right and a return to the left or vice versa.

There seems to be no question about the legality of the shift. With other shifts there is always an argument about the players being in motion before the play is actually started. No such question can be raised about Centre's new stunt.

The Ding Sing shift calls for perfect timing. It is a lazy looking play. Its value lies largely in the fact that it upsets the opposition since it offers possibilities for a plunge, punt or pass from the formation.

Charles Moran, National League umpire and coach of Centre's team, laughs at the thought of the lockstep shift being something new. Asked for an explanation of it he said:

"A similar play to the one that Centre used against Harvard was used as far back as 1891. Some of the players who took part in the Centre-Harvard game were there. The play is old, it is new, it is all

SALTED MIXED NUTS

By BERTHA E. SHAPLEIGH of Columbia University.

One cup Jordan almonds, one-half cup each of English walnuts.

Blanch the almonds by covering with boiling water over the stove, cooking for one minute and plunging them into cold water.

The skins then rub off easily. Do not allow nuts to stand in the water. Dry thoroughly. Do the same with the English walnuts but the pecans do not require it.

Cook the nuts in a pan with a little hot oil, either cottonseed or olive, two or three minutes, keeping them constantly stirred.

Drain on paper, remove to a second piece of paper and season with salt.

MISS SHAPLEIGH'S HINTS ON BAKING BREAD AND ROLLS

By BERTHA E. SHAPLEIGH of Columbia University.

To use a common, trite, but apt expression, "bread is the staff of life." To make a loaf of bread which is sweet, well risen, well baked and of a good flavor is a great accomplishment and gives one a most satisfied feeling.

We hear much about the desirability of every housewife making her own bread. If she can provide her family with bread which is well baked, and conduct her household let her by all means make it.

But the large bakeries can bake bread much more satisfactorily than the individual. The ingredients are weighed, the mix is so well that the results are always good and the large ovens bake the loaves uniformly well.

The housewife can relieve the monotony of plain raised bread by making biscuits, muffins, corn meal bread, popovers and the like. In these the raising is done quickly by the use of eggs, baking powder or soda combined with sour milk or buttermilk.

Using Sour Milk.

Housewives who have a good deal of milk which becomes sour or who have buttermilk would like to have recipes cooking that do not always have good results.

The best way is to use soda enough to sweeten the milk, say one level teaspoon of soda to one quart milk, and then use baking powder in the same amount as if sweet milk were being used.

Variety can be secured by adding to the plain yeast dough sugar, eggs, butter, spice, fruits or nuts and shaping into rolls or loaves.

Some of the dough may be kept in the ice box and used from day to day for several days, having hot, plain or sweet rolls often with little trouble.

Or when shaping the loaves knead into the dough for one loaf some cooked rice or raisins or both. This bread will be much appreciated especially by the children.

Use More Yeast.

It has been found by experienced bread makers that it is better to shorten the length of time for fermentation by using more yeast, this giving a better result in the quality of the bread.

But when a housewife is careful and gives bread a good deal of thought and attention, the result is good with a smaller quantity of yeast.

The old method of setting bread by night is sometimes not advisable as the temperature of the room is likely to change during the night.

BERWICK SPONGE CAKE: RECIPE THAT NEVER FAILS

By BERTHA E. SHAPLEIGH of Columbia University.

The following recipe is from a collection in the possession of an elderly woman who has lived her life in Berwick, Me. She says this recipe is reliable, or to quote her, it never fails if directions are followed.

Beat three eggs, whites and yolks together, two minutes. Add one and one-half cups sugar. Beat five minutes.

Mix two level teaspoons cream tartar with one cup flour. Beat into cake two minutes.

Dissolve one level teaspoon soda in one-half cup cold water. Add to cake mixture and beat one minute.

Finally add another cup of flour mixed with one-half teaspoon salt and beat one minute.

Then add the juice and grated rind of half a lemon. Bake 30 minutes in moderately hot oven.

FORK CAKE WHICH KEEPS INDEFINITELY

By BERTHA E. SHAPLEIGH of Columbia University.

This is a cake which used to be very popular. It keeps indefinitely and is a good cake for housekeepers to make, if they have good pork.

This recipe makes three medium sized loaves:

Two cups finely chopped clear fat pork.

One and a half cups boiling water.
One cup seeded raisins.
One cup currants.
Half pound citron.
Two cups sugar.
One cup molasses.
Six cups flour.
One tablespoon soda.
One tablespoon cinnamon.
One tablespoon cloves.

Pour boiling water over the pork and let stand until cool. Then add sugar, molasses and fruit. Mix flour with soda and spices, and beat thoroughly into the other mixture. Bake two hours slowly.

How to Make Coffee

A coffee manufacturer who takes pride in turning out a perfect article is in a way unfortunate, inasmuch as he has no control over the final step in manufacture, the making of the coffee in the home. The very finest coffee, unless it is made correctly, will not produce a beverage that is worthy of the effort put forth by the manufacturer, and the money expended by the purchaser. It is, however, a matter of great satisfaction to a manufacturer priding himself on the quality of his product, that the public is today becoming aware of this fact and is devoting more care to coffee making.

It has been definitely determined that the best way to prepare coffee is by the French Drip Method. This is where boiling water is poured over the coffee and drips into another receptacle. All restaurant urns are made on this principle. A good French Drip Pot can usually be obtained in any store carrying kitchen utensils, but if your dealer cannot supply one, we will arrange to fill your order.

Although this is the best way, very good coffee can be prepared by the following method, using a heaping tablespoon of coffee to each cup of water.

Into an ordinary coffee pot or sauce pan, measure the desired amount of ground coffee and add water; bring to a boil, stir thoroughly, then take from the fire. It is most important to do this, for continued boiling causes the flavor or aroma to escape and leaves a drink that is bitter and unsatisfactory. A dash of cold water added at the time the water is removed from the fire will help to settle the grounds.

COTTON MARKET

New York Cotton

NEW YORK, Nov 3—The cotton market showed continued firmness with increasing activity during early trading. The opening was firm at an advance of 14 to 31 points on relatively firm cables with December selling up to 24.87 and January to 24.45 or into new high ground for the season. The advance met heavy realizing and there was considerable southern selling but buying was encouraged by bullish private gleaning and crop figures and the early offerings were absorbed on reactions of 10 to 12 points.

The cotton was realized in the early afternoon on advance which carried December contracts up to 25.06, or 19 to 21 points higher than the close of the previous week, and January within 3 points of the best.

The market showed considerable activity late in the morning, reports that the size basis was 3 points higher in the southwest with an improved demand at almost equal bullish advices from points of the eastern belt markets encouraged the buying movement here while there was an active demand for December. This absorbed further scattered realizing and the market was firm all around midday with December selling at 24.87 and January at 24.45 or about 30 to 42 points net higher on the more active months.

Cotton closed as follows:

	High	Low	Close
December	24.85	24.66	24.80
January	24.51	24.31	24.3
March	24.51	24.45	24.42
May	24.56	24.15	24.42
July	23.82	23.82	24.9

New Orleans Cotton

NEW ORLEANS, Nov 3—An excited market and heavy buying opened the trading in cotton today. Prices rose 27 to 39 points in the first few minutes of the session carrying all months to new high marks for the season. December touched 24.18 cents a pound. Buying was mainly the result of a private bureau estimate of 8,140,000 bales ginned to the first of November, pointing to a crop of 8,400,000 bales.

Maintaining a very firm tone the market gradually widened its advance on general buying toward noon standing at an advance of 42 to 60 points. December traded up to 24.43 cents a pound. Mill takings for the week of 385,000 bales were larger than expected but caused no great amount of buying because they compared with the very large takings of 437,000 bales this week last year.

The firmness was retained in the face of considerable realizing on the long side. In the trading up to 1:30 o'clock prices were sent to gains of 49 to 65 points, December reaching 24.43.

Cotton closed strong at a net gain of 42 to 55 points.

	High	Low	Close
December	24.43	24.08	24.40
January	24.03	24.02	24.42
March	24.40	24.06	24.30

July	23.94	23.65	23.9

GRAIN AND PRODUCE

CHICAGO, Nov 3—Profit taking on the part of holders and a depressing effect on wheat values today after moderate upturns had taken place because of indications of better export demand. The close was unsettled 1 to 1c net lower with December 1.18½ to 1.18¾ and May 1.13¾ to 1.13½.

CHICAGO, Nov 3—Wheat prices showed firmness today during the early dealings, export sales here of 550,000 bushels of durum and 250,000 bushels of rye tending to encourage bullish sentiment. Dispatches indicating possibility of renewed friction between the Turks and the allies counted also on the side of higher prices. Trade however lacked volume and upturns were difficult to maintain. The opening, which varied from unchanged figures to ½c higher, with December $1.18⅝@¾ and May $1.14@1.14¼, was followed by a slight sag and then by gains all around.

Corn and oats reflected the action of wheat. After opening ½c to 1c lower, December 63½@¾c, the corn market scored a little general advance.

Reports of lessened car scarcity together with increased country offerings led subsequently to something of a setback. The close was easy 1 to 1c net lower with December 66c.

Oats started a shade to ½c to ¼c lower, December 43½c, and later turned upward.

Provisions were higher in line with hog values.

STOCKS AND FINANCIAL

NEW YORK, Nov 3—The upward movement of prices was continued at the opening of today's stock market with the majority bringing forward new leaders to rally the list. Copper oil and merchandising shares were most in demand, the gains ranging from one to two points. American Smelting, Utah and Anaconda each improved a point, with slightly smaller gains being noted in National Lead, Calumet and Superior, Standard Oil of New Jersey, which was pushed up nearly two points, led the initial upward swing in oils. Railroad shares were less active but St. Louis & Southwestern preferred and Rock Island each climbed a point in the early dealings, further individual strong spots were May Department Stores, Fisher Body, Hosch, Magnet, American Waterworks, National Biscuit and American Writing Paper preferred. Heavy profit taking took place at the higher levels. Mexican Petroleum dropping one point, Standard Oil of New Jersey, anchoring its early gain and Baldwin and American Locomotive and Studebaker all selling below last night's closing levels.

In the main the tendency was upward during the afternoon with industrial shares again coming into favor when the rise of the railroads slackened. Standard Oil of New Jersey was quite feverish, dropping from 2.14½ to 2.10 and then rebounding to its early high price. Studebaker shook off its previous heaviness and moved up to 1.78½. Improvements of 1 to 4½ points were registered by Mexican Petroleum, Tidewater Oil, Peoples Gas, American Tobacco, Adams Express, Pierce Oil preferred, American Can, American Sugar, Cuban Cane Sugar preferred and Remington Typewriter first preferred.

The closing was strong. Sales approximated 1,000,000 shares.

Annual Thanksgiving Proclamation Issued

WASHINGTON, Nov 3—President Harding today issued the annual Thanksgiving proclamation, which has become a day of thanksgiving and supplication, as follows:

The text of the proclamation follows:

By the president of the United States of America, a proclamation.

In the beginning of this country the custom was established by the forefathers of observing times of humiliation and prayer, which the habit has become a day of thanksgiving and prayer, which has extended through all the years. It has become perhaps the most characteristically American and as the season approaches for its observance it is fitting for us all to give heed to the ancient admonition to unite in appropriate celebration.

The year which now approaches its close has been marked in the experience of our nation by a continuance of trials and triumphs and difficulties and achievements which we must regard as our portion while profiting by such an epoch is that through which all mankind is moving. As we survey the experiences of the passing twelve months we shall find that our estate presents very much to justify a feeling of gratitude for the country which has been bestowed upon us. Though we have suffered in the shadow of the hard consequences of great conflict our country has been at peace and has been able to contribute toward the maintenance and perpetuation of peace in the world. We have seen the race of mankind make gratifying progress on the way to permanent peace, toward order and restored confidence in its high destiny.

For the divine guidance which has enabled us in growing fraternity with other peoples to attain so much progress for the bounteous yield which has come to us from the resources of our soil and our industry we owe our tribute of gratitude and with it a solemn acknowledgment of the duty and obligation of our own people and to the unfortunate, the suffering, the distracted of other lands. Let us in all humility acknowledge how great is the debt of the providence which has generously dealt with us and give devout assurance of unselfish participation in every humane advancement. It is meet that we should rejoice that in spite of the sorrows and losses of the year we have been so favored in comparison with other peoples.

In witness whereof I have hereunto set my hand and affixed the seal of the United States to be affixed.

Done at the city of Washington this second day of November in the year of our Lord one thousand nine hundred and twenty-two and of the independence of the United States of America the one hundred forty-seventh.

OPERATIC COMEDY 'IMPRESARIO' TO BE HERE NOVEMBER 14

Mozart's operatic comedy "The Impresario" produced under the personal direction of William Wade Hinshaw will be presented in this city November 14, at the Wichita theatre under the auspices of the local Philharmonic society. It is the original production from the Society of American Singers in New York and had a successful run through the larger cities of the country last season and met enthusiastic audiences everywhere. Hinshaw attributes the remarkable success with which the "Impresario" has met to the fact that the company is composed of the leading artists of the musical society from which the singers were selected and to the fact that it is sung in English and with English dialogue in place of the recitatives. The scenic effects by Humphus and Lewis of New York promise to be something new and original to audiences in this city.

The company is made up of five excellent singers and actors. Percy Hemus Francis Tyler Thomas McGranahan Hazel Huntington and Lottice Howell. Gladys Craven (Mrs. Percy Hemus) is accompanist.

Percy Hemus (celebrated American baritone from the Society of American singers will sing the title role. Mr Hemus has built for himself a reputation as a singer and for his dramatic ability. His range is exceptionally wide and true and beautiful in all registers.

He is supported by Francis Tyler baritone who plays the role of Phillip the nephew of the director. Thomas McGranahan often termed the second McCormack who will be seen as Mozart and is famed for his tenor. Hazel Huntington and Lottice Howell as the rival donnas.

Theatre goers and music lovers of this city are looking forward with much interest to the coming of these artists to this city. They come here with the highest commendations from other cities and with a successful run in New York and on the road.

Boils Quit Quick!

S. S. S. Will Prove to You, With Its Own Case the "How" and "Why" of its Remarkable Blood-Cleansing Power!

There is a reason for everything that happens. Common-sense kills misery. Common-sense also stops boils! S. S. S. is the common-sense remedy for boils.

Pimples May be Small Boils

because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood power, it builds red blood-cells. That is what makes fighting-blood. Fighting blood destroys impurities. It fights boils. It always wins! It fights pimples! It fights skin eruptions! It builds nerve-power, thinking power, the tight fisted power that whirls a man up into success. It gives women the health the angelic complexion and the charm that moves the world! These are the reasons that have made S. S. S. today the great blood-cleanser, body builder, success builder, and it's why results have made tears of joy flow from the souls of thousands. Mr V D Scheff 557 15th St., Washington, D. C., writes

"I tried for years to get relief from a bad case of boils. Everything failed until I took S. S. S. I am now absolutely cured, and it was S. S. S. that did it."

Try it yourself. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

NEW DUNDEE PASTOR

REV W M. BOWDEN

Rev W M Bowden new pastor of the Dundee Methodist church will open his pastorate Sunday with two services.

Rev Bowden has not yet moved to this district from his present home in Fort Worth, but expects to do so within the next two weeks. The pastor comes highly recommended having served churches in Fort Worth Waco Glen Rose seven years all told in the central Texas conference. At Glen Rose Rev Bowden started work which resulted in the erection of a $25 000 church building.

For the past year Rev Bowden has done evangelistic work from the Rocky mountains back toward the Pacific coast but he expresses satisfaction at being able to accept a regular appointment and particularly grateful is he because of opportunity to work with Rev B. M Brock presiding elder of this district.

Rev Bowden has been a resident of Fort Worth for six years.

MERCURY VARIES LITTLE IN PAST 24 HOURS LOCALLY

There was but twelve points difference between the maximum and minimum temperatures locally Thursday and Thursday night in this city. During the afternoon Thursday the highest point reached was 80 degrees and during the night it fell down to the 68 degree point.

South winds were reported form all points in the district Friday morning and although clouds passed over this city early in the morning agents from other points southwest and north all reported clear skies.

There was little wind movement although for an hour Friday morning locally it reached a higher velocity but calmed down after some threatening clouds had passed.

JEWISH STUDENTS EXCUSED DURING READING OF BIBLE

Parents of a number of Jewish children in the public schools have asked the school authorities to excuse their children from attendance upon the reading of the Bible in the schools.

The excuses requested have been granted.

In a number of the rooms passages from the Bible are being read daily but no attempt is being made to discuss the passages read.

"I am informed that a decision of the Texas supreme court permits the reading of the Bible in the public schools" said Superintendent Clark "but to show how delicate a matter it is I have just read of an action in California to stop the reading of the King James version of the Bible in the schools there on the grounds that it is a sectarian version of the Bible."

A forest at maturity contains scarcely 5 per cent of the trees that started life there the death of the other 95 per cent having been necessary to the survivors development.

GIVES REASONS FOR BELIEF IN BIBLE AND ITS DIVINITY

Thursday night before a large and enthusiastic audience Foy E Wallace Jr. took for his subject, "The Bible and Why I Believe It." As a scripture upon which to base his remarks, he read "I have written to him the great things of my law, but they were counted as a strange thing" Hosea 8 12. This scripture was followed with 2 Tim 3 16-17 which reads, "All scripture is given by inspiration of God and is profitable for doctrine, for reproof for correction for instruction in righteousness, that the man of God may be perfect thoroughly furnished unto all good works."

It was shown that forty different men wrote the Bible during a period of 1600 years, using different languages and yet the Bible writings are all bound together in unity and with no contradictions.

"The Bible furnishes the scheme of redemption for man God drove Adam from the garden of Eden to keep him from partaking of the tree of life and living forever in sin. This was done so God could perfect the scheme of redemption which was fulfilled in Christ," the speaker said. "No man could have written such a book as the Bible in its simplicity as no man could have created a rose. God can be seen everywhere. The heavens declare the Glory of God and the firmament showeth his handiwork.

"The Bible contains every moral precept known. The indestructibility of the Bible proves its divine origin. In contrast to a prediction of Voltaire the infidel that within a hundred years the Bible would be unread the printing presses today roll out 10 000 000 copies yearly and still the demand is unsupplied."

The minister closed his remarks with a beautiful eulogy upon the truth greatness help comfort and everlasting influence of the Bible.

Meeting each night at 7 30 and beginning next week there will be meetings in the daytime.

Professor W W Skeat, in the recently published fourth edition of his dictionary containing approximately 20 000 words recognises only 12 as untraceable in origin.

Take Calotabs for the liver

TRADE MARK REG

Beware of imitations. Demand the genuine in 10c and 35c packages bearing above trade mark.

CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day. It loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (adv.)

DO LITTLE THINGS TIRE YOU OUT?

ARE you "all run down", weak and languid and thin in flesh from summer heat and fall colds? Is your appetite gone, your nerves on edge, your digestion poor?

You need Gude's Pepto-Mangan. It renews the supply of rich, red blood, brings back the lost energy and animation, tones up your nervous system and helps to build firm, solid, healthy flesh and strong muscles.

Your druggist has Gude's—liquid or tablets as you prefer

HIGH SCHOOL BOYS IN COURT FRIDAY ON GAMING CHARGE

Seven high school boys, charged with gaming were brought before Judge Hoffman in the city court Friday morning for trial. Five plead not guilty to the charge but admitted they were looking on, the other two plead guilty.

After much questioning Judge Hoffman discharged all seven of the players upon a promise that they would not engage in games of chance. Instructions were given them to pass the word around among the high school boys that the next student who was brought to the city hall on a gaming charge would be fined.
